

GIVI JAMBURIA

Software & Web Developer

Tbilisi, Georgia · +995 599 33 88 32 · givijf@gmail.com

Portfolio · [GitHub: WhiteFatal](#) · [LinkedIn](#)

PROFILE

Self-taught web developer with a genuine passion for building fast, purposeful interfaces. Proficient across the modern frontend stack (HTML, CSS, JavaScript, TypeScript, React, and Next.js) with growing full-stack capability through Node.js, Express, Firebase, and Supabase, and hands-on Shopify theme development with Liquid. Brings a strong analytical mindset and exceptional attention to detail to every project. Currently available for freelance projects and full-time opportunities.

TECHNICAL SKILLS

Core	HTML5 · CSS3 · JavaScript (ES6+) · TypeScript
Frameworks & UI	React · Next.js · Astro · Alpine.js · Tailwind CSS
E-commerce	Shopify · Liquid
Backend	Node.js · Express.js · SQLite
BaaS & Database	Firebase · Supabase
AI Integration	Claude API (Anthropic) · AI-assisted development workflows
Deployment	Vercel · Netlify · GitHub Pages · DirectAdmin · Namecheap
Tooling	Git · GitHub · VS Code · npm
Practice	freeCodeCamp · Scrimba · Codewars

PROJECTS

EBRA | Creative Ceramics Workshop

[GitHub](#) · [Live](#) ↗

[Shopify](#) [Liquid](#) [HTML](#) [CSS](#)

- Online store for a Georgian studio producing handmade ceramics, where each piece is created by professional artists and ceramists with an individual design.
- Built as a custom Shopify theme with Liquid, HTML, and CSS, demonstrating e-commerce theme development on a live store.

AID Group | Pharmaceutical Engineering & GMP Consulting

[GitHub](#) · [Live](#) ↗

[Astro](#) [JavaScript](#) [Vercel](#)

- Corporate website for an engineering consultancy covering facility and utility engineering, equipment selection, and qualification/validation (DQ/IQ/OQ/PQ) for pharmaceutical manufacturers.
- Built with Astro and deployed on Vercel, a second pharmaceutical-sector website alongside Onyx.

Onyx Corporation | Pharmaceutical Company Website

[GitHub](#) · [Live](#) ↗

[Astro](#) [Alpine.js](#) [Tailwind CSS](#) [Sanity CMS](#) [Vercel](#)

- Corporate multilingual website (EN/RU) for a pharmaceutical manufacturer, built with Astro for maximum performance and minimal JS footprint.
- Integrated Sanity CMS for content management, Alpine.js for lightweight interactivity, deployed on Vercel.

aoe.ge | Age of Empires 2 Georgian Community

[GitHub](#) · [Live](#) ↗

[Next.js](#) [TypeScript](#) [Tailwind CSS](#) [Supabase](#) [Vercel](#)

- Collaboration project with Team Georgia: community website with live leaderboard data pulled from the official AoE2 Definitive Edition API.
- Full-stack Next.js app with Supabase backend; demonstrates API integration, real-time data, and team-based development workflow.

Text Editor | Google Docs Clone

[GitHub](#) · [Live](#) ↗

[Next.js](#) [TypeScript](#) [Tailwind CSS](#) [Liveblocks](#) [Clerk](#) [Supabase](#) [Vercel](#)

- Feature-rich collaborative text editor inspired by Google Docs, built following the “Code With Antonio” course.
- Integrates Liveblocks for real-time collaborative editing, Clerk for authentication, and Supabase for persistence, demonstrating command of a full production stack.

PITCH | Football Game Reservation PWA

[GitHub](#) · [Live](#) ↗

[React](#) [Firebase](#) [Vercel](#) [PWA](#)

- Single-page Progressive Web App for booking football pitches, featuring a player ranking system and real-time data updates via Firebase.
- Demonstrates real-time database integration, PWA configuration, and production deployment on Vercel.

My Home Bar | Cocktails Store (Shopify Practice Store)

[GitHub](#) · [Live](#) ↗

[Shopify](#) [Liquid](#) [HTML](#) [CSS](#)

- Trial development store on the Shopify platform for a cocktails shop, built as a hands-on practice project.
- Shows Shopify store setup and theme customisation with Liquid, HTML, and CSS.

Radiance | Web Development Studio (In Progress)

[Live](#) ↗

[Next.js](#) [TypeScript](#) [Tailwind CSS](#) [Vercel](#)

- Official website of a professional web studio that turns ideas into digital experiences and business solutions.
- Currently under development with Next.js, TypeScript, and Tailwind CSS.

OTHER PROJECTS

SUZUKI Animated HTML Banner

[GitHub](#) · [Live](#) ↗

Lightweight animated advertisement banner for Suzuki vehicles.
[HTML](#) · [CSS](#) · [JavaScript](#)

Reminder Notes | PWA

[GitHub](#) · [Live](#) ↗

Lightweight vanilla-JS Progressive Web App for personal notes and reminders with Firebase persistence.
[HTML](#) · [CSS](#) · [JavaScript](#) · [Firebase](#) · [Netlify](#)

zgaprebi.ge | Georgian Audio Fairy Tales Platform (since 2015)

[GitHub](#) · [Live](#) ↗

Online library of Georgian-language audio fairy tales, a long-running personal project actively maintained and upgraded from PHP 5.6 to PHP 8.3.
[HTML](#) · [CSS](#) · [JavaScript](#) · [PHP 5.6→8.3](#) · [DirectAdmin](#)

Personal Portfolio Website

[GitHub](#) · [Live](#) ↗

Built from scratch with zero frameworks, targeting sub-100ms Time-to-Interactive.
[HTML](#) · [CSS](#) · [JavaScript](#) · [GitHub Pages](#)

Ancient AoE2 Community Site (2004)

[GitHub](#) · [Live](#) ↗

The first website of the Georgian Age of Empires 2 community, hand-coded in 2004 and archived on GitHub, the start of a 20+ year journey in web development.
[HTML](#) · [CSS](#) · [JavaScript](#)
